How to Setup Adobe Flash on LabConnection on DVD by dti publishing

This shows how to configure Adobe Flash Player 10.3 and Internet Explorer 9.0.8112. The demonstration is on a virtual machine running Windows 7 x64. This does not show working with the activation code.

The LabConnection is loaded into the DVD player. Autoplay is generally considered a bad idea, so we need to go to the computer link off the start menu.
